COMPUTER HARDWARE & SOFTWARE

Computer Hardware and Software

1. The fastest hardware device in a computer is? (a)USB port (b)Processor (c)cache memory
2. ___is a network security device that grants or rejects network access to traffic flows between an untrusted zone and trusted zone (a)Firewall (b)Bridge (c)Router
3. All of these are examples of various input devices except___ (a)keyboard (b) mouse (c) speakers
4. The place where accessories are connected in the computer is known as (a)port (b)Ring (c)Zip
5. System software acts as a bridge between the hardware and the ___ software (a)utility (b)Application (c)Management
6. Flash drive is popularly known as__ (a)RAM (b)ROM (c)pen drive
7. Which of the following are input devices (a)Scanner (b)printer (c)monitor
8. Auxiliary memory is popularly known as (a)primary storage (b)Secondary storage (c)processing unit
9. A region in the computer memory where frequently accessed data can be stored for rapid access is known as?(a)Token (b)Cookie (c)Cache
10. A program that provides software interface to hardware device is known as (a)Device drivers (b)system software (c)Application software
11. Which of the following is designed to control the activities of a computer (a)Utility software (b)System software (c)Application software
12. Which of the following are physical devices of a computer (a)Software (b)Package (c)Hardware
13. Which of the following devices provides the communication between a computer and the outer world (a)I/O (b)Storage (c)Drivers
14. Which of the following input devices enable direct data entry into a computer system from source documents (a)System access devices (b)Data scanning Devices (c)Data acquiring devices
15. Which of the following is not an hardware? (a)mouse (b)printer (c)Operating system
16. Which of the following is responsible for converting input into output (a)CPU (b)RAM (c)Storage device
17. Which of the following produces the best quality graphics reproduction (a)Inkjet Printer (b)plotter (c)Laser Printer
18. A__displays information in visual form (a)Keyboard (b)Printer (c)Monitor
19. Which of the following are the most common input devices (a)Keyboard and mouse (b)Scanner and monitor (c)microphone and printers
20. Which of the following devices can perform both input and output functions (a)monitor (b)Communication devices (c)mouse
21. In source data entry device,what is the full form of OMR? (a)Open mark Recognition (b)Open Message Recognition (c)Optical Mark Recognition
22. The fastest hardware device in a computer is (a)Processor (b)Cache memory (c)None
23. ___controls the way the computer system functions and provides a way of interaction with the user(a)Motherboard (b)Operating system (c)Application software
24. ___supervises the execution of instructions (a)Auxiliary storage (b)ROM (c)Control Unit
25. ___is a set of computer programs used in a computer to help perform tasks (a)software (b)Instruction (c)processor

26. VDU in full form is?(a)Virtual Display Unit (b)Visual display unit (c)Visual Deception unit
27. CRT has ___level of of power consumptions among monitors (a)lowest (b)zero (c)Highest
28. The display of LCD monitor is ___than that of LED monitor (a)duller (b)brighter (c)lighter
29. The type of printer which hits the paper to produce print is known as (a)non-impact type printer (b)impact type printer (c)scanner
30. The hardware component of a computer system does not include?(a)light pen (b)printer (c)File
